The APICS CPIM Learning System.....	i
Module 1: Supply Chains and Strategy.....	1
Section A: Supply Chains, the Environment, and Strategy.....	2
Supply Chain and MPC Overviews.....	2
Strategy Overview.....	13
Mission, Vision, and Values.....	23
Section B: Environment Analysis and Strategic Scope.....	30
Analyzing the External Environment.....	30
Analyzing the Internal Environment.....	42
Strategic Scope.....	58
Section C: Developing and Managing Strategy at Various Levels.....	70
Order Qualifiers and Winners.....	71
Generic Strategies.....	75
Functional and Operational Strategies.....	87
Aligning Facility Strategy.....	95
Executing, Monitoring, and Changing Strategy.....	101
Section D: Performance Monitoring and KPIs.....	112
Performance Monitoring Systems.....	112
Strategic, Financial, and Operational Metrics.....	136
Module 2: Sales and Operations Planning.....	155
Section A: S&OP Purpose and Process.....	156
S&OP Overview and Key Linkages.....	156
S&OP Roles and Process.....	163
Integrating and Balancing Roles of S&OP.....	176
Section B: Aggregate Demand and Supply Plans.....	188
Aggregate Demand and Supply Plans.....	189
Production Planning Grid and Production Methods.....	199
Resource Planning for Capacity and Marketing Strategies.....	225
Resource Planning as Capacity Check, HR, and Strategic Buffers.....	239
Section C: Reconciling S&OP Plans.....	250
Synchronizing Supply and Demand.....	250
Tradeoffs, Alternatives, and Approved Plan.....	253

Module 3: Demand.....	261
Section A: Demand Management.....	262
Demand Management Overview.....	263
Customer Segments and Strategic Objectives.....	270
Customer Relationship Management.....	282
Customer Service Methods.....	285
Customer Metrics.....	294
Influencing Demand and Product Designs.....	299
Section B: Sources of Demand/Forecasting.....	317
Demand Channels and Sources.....	318
Forecasting Overview and Selection.....	328
Qualitative Forecasting.....	344
Quantitative Forecasting.....	353
Section C: Forecast Performance.....	376
Evaluating Forecast Performance.....	376
Forecast Management.....	389
Index.....	401

Contents

Module 4: Internal Supply.....	1
Section A: Functional and Operational Strategies.....	2
Analysis for Functional and Operational Strategies.....	2
Section B: Environments, Types, and Layouts.....	13
Push-Pull Strategy and Manufacturing Environment.....	13
Product-Process Matrix.....	32
Determining Process Type and Layout.....	40
Service Design and Project Management for ETO or Improvements.....	60
Section C: Creating the Master Schedule.....	73
Master Scheduling Overview.....	73
Product Structure Impact on Master Scheduling.....	84
Creating the MPS.....	89
Section D: Rough-Cut Capacity Planning and MPS Validation.....	98
Rough-Cut Capacity Planning.....	98
Master Production Schedule Validation.....	103
Section E: Using and Maintaining the Master Schedule.....	116
Using the Master Schedule.....	116
Maintaining the Master Schedule.....	128
Section F: Material Requirements Planning.....	140
MRP Overview and Design.....	141
MRP Inputs, Process, and Outputs.....	147
Using and Managing MRP.....	169
Section G: Capacity Requirements Planning, Order Promising, and Final Assembly Scheduling.....	193
Capacity Requirements Planning.....	193
Available-to-Promise, Capable-to-Promise, and Order Promising.....	199
Final Assembly Scheduling.....	207
Section H: Changes and Supply Disruptions.....	219
Supply Disruptions Overview.....	219
Replanning and Revision.....	221
Module 5: External Supply and Key Support Functions.....	231
Section A: Suppliers and Procurement.....	232
Supply and Purchasing Planning.....	233
Supplier Relationships and Strategies.....	250

Capable Suppliers and Contracts.....	271
Section B: Purchasing and Maintenance.....	279
Purchasing Cycle and Contract Buying.....	279
Supplier Performance.....	286
Section C: Risk Management.....	292
Risk Management Process.....	292
Identifying, Assessing, and Managing Risks.....	297
Section D: Sustainability Strategies.....	306
Sustainability Overview.....	306
Sustainability Strategy and Standards.....	321
Impact, Mitigation, Metrics, and Reporting.....	334
Section E: Waste Hierarchy and Reverse Logistics.....	344
Waste Hierarchy.....	344
Reverse Logistics and Product Disposition.....	351
Module 6: Inventory.....	361
Section A: Inventory Planning.....	362
Purposes and Goals of Inventory.....	362
Inventory Types and Classifications.....	368
Inventory Policy.....	384
Section B: Inventory Costs, Basic Accounting, Costing, and Metrics.....	394
Inventory Costs Overview.....	395
Accounting and Costing.....	399
Variance Analysis.....	420
Financial Performance Measures and Inventory Finance.....	425
Section C: Inventory Management.....	433
Push or Pull Replenishment.....	434
Economic Order Quantity and Lot-Size Rules.....	447
Safety Stock and Safety Lead Time.....	461
Special Inventory and MRO Supplies.....	477
Section D: Inventory Control.....	488
Inventory Storage, Flow, and Handling.....	488
Inventory Accuracy.....	496
Index.....	507

Contents

Module 7: Detailed Schedules.....	1
Section A: Planning Detailed Schedules.....	2
Detailed Scheduling and Throughput.....	2
Production Activity Control.....	16
Section B: Scheduling and PAC Methods.....	42
Intermittent/Flow Manufacturing, Scheduling, and PAC.....	43
MRP-Based Scheduling and PAC.....	58
Lean Environments, Scheduling, and PAC.....	77
TOC Scheduling and PAC.....	95
Nonstandard Demand.....	111
Section C: Creating Production and Service Schedules.....	126
Capacity Planning and Service Capacity.....	126
Capacity Requirements Planning (CRP).....	133
Section D: Managing Detailed Schedules and Scheduling Materials.....	162
Labor/Production Scheduling and Managing HR.....	163
Execution and Capacity Performance.....	171
Module 8: Distribution.....	181
Section A: Planning Distribution.....	182
Distribution and Inventory Planning.....	183
Network Configuration.....	192
Design or Redesign a Logistics Network.....	201
Evaluate Network and Transportation Requirements.....	211
Evaluate Facility Requirements.....	224
Make Facility Number and Type Decisions.....	228
Understand Different Network Modeling Approaches.....	234
Distribution Plans.....	244
Section B: Replenishment.....	262
Replenishment Planning.....	262
Distribution Requirements Planning.....	273
Section C: Order Management, Trace/Track, and KPIs.....	286
Customer Order Management.....	286
Inventory Traceability and Tracking.....	293
Distribution Performance KPIs.....	304

Module 9: Quality, Business Investments, and Continuous Improvement.....	313
Section A: Quality.....	314
Quality Planning and Assurance/Control.....	314
Measuring Quality Costs.....	328
Quality Tools.....	334
Section B: Capital Equipment and Facilities.....	350
Business Planning and Capital Budgeting.....	350
Total Productive Maintenance and Health, Safety, and Environment.....	359
Section C: Technology.....	363
Requirements, Gap Analysis, and Selection.....	363
Implementing and Maintaining Technologies.....	374
Technologies.....	377
Section D: Continuous Improvement.....	398
Continuous Improvement Strategies.....	398
Lean.....	407
Employee Empowerment.....	426
Relationship Improvement Tools.....	435
Structured Problem-Solving Tools.....	448
Additional Process Improvement Tools.....	460
Work Area Design.....	466
Process Variation.....	474
Course Bibliography.....	497
Index.....	499
